Our Distributors

As a global chemical manufacturing company, ADEKA has established an effective global distribution network, utilizing qualified distributors and serving all targeted markets around the world. The company is fully dedicated to serving our small customers, and the distribution strategy is structured by geographic region.

FOR SKIN CARE

Sunsoft APF(G)-C(MB) & TAP-C(MB) are excellent moisturizers and nourish the skin. The AP series consists of natural emollients. They are absorbed quickly into the skin without leaving behind an oily residue. They leave a smooth and silky powdery finish on the skin.

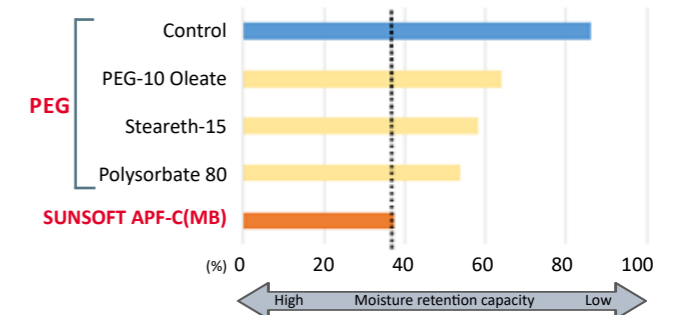

BENEFITS FOR SKIN CARE

- Gives soft and glowing effect
- Moisturizes and nourishes skin
- Skin conditioning
- Emollient
- Emulsifying

FEATURES

- Designed for hair & skin care
- 100 % natural
- Cosmos certified
- China & REACH

COMPARISON OF MOISTURE RETENTION CAPACITY

Measure 25g of water into 50ml glass bottle, cover the top with a filter paper and seal with plastic tape. Apply 0.15g oil to the upper surface of filter paper and measure the weight after storing for 7 days at 40°C, Humidity 37%.

SUNSOFT APF (G)-C(MB) SUNSOFT TAP-C(MB)

INCI: APRICOT KERNEL OIL, POLYGLYCERYL-6 ESTERS

SUNSOFT APF (G)-C(MB) & TAP-C(MB) are derived from plentiful Apricot Kernel Oil a Natural Vegetable Oil with a polyglycerol composition profile that provides excellent emollient properties appreciated for all cosmetic formulations. The products exhibit greater stability over time compared to other oils due to their high content in oleic acid. APF (G)-C(MB) and TAP-C (MB) offer an excellent light texture, ease of spreading, great penetration and significant moisture retention without leaving an oily feeling. They have high nourishing revitalizing and protection properties that are also popular in many cosmetics for dry or aged skin.
